Who makes DTH drilling rigs?

JK Drilling, a professional drilling equipment manufacturer, provides a wide range of DTH drilling rigs that feature high efficiency, high quality and high cost-performance. JK Drilling has the unique ability to provide drilling solutions at all stages of the mining lifecycle, across a diverse range of commodities and geographies.

What is a DTH drilling machine?

The DTH drilling machine is also known as a rock drill, and it is an important tool that is used in the mining industry. The machine consists of a drill bit, a hammer, and a compressor. The drill bit is made of tungsten carbide and is attached to the end of the drill pipe. The hammer is used to strike the drill bit and create a hole in the ground.

What is the global DTH drill rig market size?

This method, for example, is incredibly effective when creating large excavations or tunnels. According to Market Watch, the global DTH Drill Rig market size is estimated to be worth USD 710.2 million in 2022 and is forecast to a readjusted size of USD 838.1 million by 2030 with a CAGR of 2.8 percent during the review period.

What are the different types of DTH drilling machines?

The rotary type of DTH drilling machine is the most popular type of DTH drilling machine because it is very efficient and it can drill large holes in a short amount of time. This type of DTH drilling machine is very similar to the rotary type, but it uses a crawler instead of a rotating drill bit.

What tools do DTH drilling machines use?

Drilling Tools: DTH drilling machines use specialized tools such as DTH hammers, which transmit intensive impact power with low energy loss and reduced fuel consumption. The DTH drill bits are designed to make operations easier, even under difficult ground conditions.

Why should you invest in a DTH drilling machine?

Here are some of the reasons why you should invest in a DTH drilling machine: You will be able to drill through almost any material, including concrete, stone, and asphalt. The machine is very versatile and can be used for a variety of drilling applications. It is relatively easy to operate, so you will not need to hire a professional operator.
