

TAIYE628-DTH is a hydraulic rig specially designed by TAIYE for customers who require a low price. Widely used for drilling blasting hole in metallurgical, mining, building materials, railway, ...

The SWDS 115AN-DTH is a high-performance separated crawler mounted surface pneumatic down-the-hole (DTH) drilling rig, ideal for efficient rock drilling and mining operations. Explore ...

KH712D open-pit down-the-hole drill adopts new hydraulic technology and is a powerful assistant for rock drilling in open-pit mining, road construction, water conservancy, power stations and ...

When using a down the hole drill, the hammer is located behind the bit inside the hammer drill. Compressed air is forced down through the hammer, it strikes ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of ...

The KG430/KG430H DTH drill rig for open use is an improved device in compliance with national regulations on environmental protection. Equipped with the Yuchai engine (China III), the drill ...

Discover how the right down-the-hole (DTH) drill rig can boost your mining and construction efficiency. Learn about rig types, key features, and expert tips from Unite Machinery.

It has the characteristics of low gas consumption, large rotary torque, convenient hole shifting and displacement, and the slide compensation function ensures drilling stability.

The integrated down the hole drill rig is a self-propelled rock drilling equipment that incorporates the power system (usually a diesel engine and an air compressor), drill arm, drilling ...

Discover the impact of Down the Hole Hammers (DTH hammers) in urban redevelopment projects. Learn how these specialized tools enable ...

The down-the-hole drill rig quickly hammers the hard rock to break it into small pieces and dust, and the down-the-hole hammer is blown away by the exhaust air. Now ...

With a 97,000 lb (43,998 kg)* bit load capacity, the durable Pit Viper 271 XC is designed for adaptability - so it easily fits into any drilling operation. The new Pit Viper 271 XC is one of the ...

On the afternoon of February 27, 2024, Xiangchi Machinery successfully shipped a boom down-the-hole

Down-the-hole drilling rig working arm

drilling rig, which is a fully automated tunneling equipment specially ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of compressed air and driven into the ...

Manufacturers of the Rotary Drilling Rig Machine. REL Specialized in Rotary Blast Hole Drill Rig, Down the Hole Drills for Mining, Quarrying & Construction.

ABSTRACT Since their first production application in Sweden in 1995, water-powered, down-the-hole hammers (WDTH) have been used throughout the world in many different drilling ...

The working principle of the down-the-hole drilling rig is: compressed air drives the piston in the impactor, hitting the drill bit for rock drilling. The characteristic of this drilling method is that the ...

Curious about DTH drilling? Learn how a Down-The-Hole hammer works, its key components, and how compressed air powers this efficient tool to break rock and create ...

Simple and sturdy AirROC T25 and AirROC D40 are the ideal "Compact Solution" drill rigs. High operational efficiency from the rig is achievable with its easy handling and interchangeable ...

The Sandvik DU411 is our compact In­The­Hole (ITH) centre­articulated drill with an on­board booster. The booster is known for its industry­leading pressure delivery, robust build and easy ...

The crawler-mounted drilling rig is particularly designed for drilling big holes, such as blastholes and photovoltaic holes. Equipped with an enhanced gearbox and two rotation motors, the DTH ...

The down-the-hole drilling rig is also powered by compressed air, and the rock is broken by rotary impact to form a hole. Its working principle is that the pneumatic impactor of the DTH drill is ...

Discover the impact of Down the Hole Hammers (DTH hammers) in urban redevelopment projects. Learn how these specialized tools enable geotechnical engineers to ...

High Performance KG430 Crawler Blasting Drill Machine Rock Drilling Rig for Mining Kaishan KG430 25m blasting ground hole Quarry Rock DTH Mining Borehole Drill Rig With Dust ...

HAMMER DEVELOPMENT The Down-the-hole or DTH hammer is used for drilling holes through a wide range of rocks and associated materials and the variety of applications to which it can ...

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading (weight), rotation and air. These active ...

Down-the-hole drilling rig working arm

A drilling machine, at its core, is a power-driven tool used to create holes in various materials--metal, wood, rock, or earth. Depending on the ...

The KG420S/KG420SH down the hole drill rig for open use is an improved device in compliance with national regulations on diesel-engine emissions. The drill rig is equipped with the two ...

Discover how the right down-the-hole (DTH) drill rig can boost your mining and construction efficiency. Learn about rig types, key features, and ...

DTH rig machine, down-the-hole drilling rig, is a powerhouse drilling tool designed for deep, accurate, and efficient boring in demanding environments. Ideal for mining exploration, quarry ...

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

High Performance KG430 Crawler Blasting Drill Machine Rock Drilling Rig for Mining Kaishan KG430 25m blasting ground hole Quarry Rock DTH Mining ...
