What are extension drilling tools?

Our extension drilling tools are designed to transmit the maximum impact to the rock with the least possible loss of energy in the drilling chain. Rockmore offers a complete range of tools for tunnelling, bolting, and drifting projects ranging from mining to dams and other civil engineering projects.

How do pneumatic rock drills work?

Pneumatic rock drills operate on air pressure from a compressor. This is why no motor is built into the machine. Rock drills work with a piston system, in which an air bubble is compressed. This creates a very powerful stroke, which is stronger than that of an impact drill.
