

## Gas rock drill in uzbekistan

Is Uzbekistan preparing for a gas crisis?

For the first time, Uzbekistan will begin gas production in deep layers, for which leading foreign investors will be invited to conduct exploration in the Ustyurt region. Despite significant reserves, Uzbekistan faced an energy crisis in anomalously cold temperatures in December 2022-January 2023 with power outages reaching the capital.

What is Uzbekneftegaz doing in 2022?

In December 2022, the state-owned oil and gas company Uzbekneftegaz (UNG), which produces 63% of the country's natural gas, announced a 10-year exploration program to increase production: it expects to survey 15.6 thousand square kilometers, and drill 530 new wells at 211 new sites.

What is Uzbekneftegaz & Forus project?

The project spells out plans for Uzbekneftegaz and Forus to increase the capacity of Uzbekistan's main underground gas-storage facility, located near the town of Gazli in the southwestern Bukhara region.
