

How many tons of rock drills are produced in Russia

How many drilling rigs can Russia produce a year?

At the moment, the Russian players capable of producing the popular drilling rigs with a hook load capacity of 225-320 t can construct up to 76 drilling rigs per year with 40 of them being made by the Uralmash plant. The drilling and support service market prospects are largely linked to the service market expansion in the entire O&G industry.

Who makes the most drilling rigs in Russia?

The largest among them, in terms of their market share in Russia, are Sichuan Honghua Petroleum Equipment and RG Petro-Machinery. In total, Chinese manufacturers retain about 45% of the local drilling rig market.

How directional drilling has changed in Russia?

Following the 2009 crisis, Russia experienced a robust increase in the meters drilled by the drilling sector. During this time, production from directional drilling was used most extensively. The growth back then reached 26.1% in production drilling and 14.9% in exploration drilling.

How much money did Russia invest in oil drilling in 2016?

According to the CDU TEK information, the 2016 total investment in production and exploration drilling for all the companies producing oil in Russia was 673.5 billion rubles (11.1 billion dollars). An investment growth in production drilling is estimated at 19.4% from 2015. Investment in the exploration drilling increased to 9%.

Will Russia's peak drilling level last long?

Drilling activity in Russia has fully recovered following the 2014-2015 crisis when the falling price of oil and sanctions caused an investment slump in the Russian domestic oil sector. However, as drilling becomes increasingly more technology-driven and costly, many experts believe that today's peak drilling level will not last for long.

Are Chinese drilling rigs a good investment in Russia?

Beginning in the late noughties, we have seen Chinese companies hold leading positions in the drilling rig market, their advantage being great price-to-quality value of their equipment. The largest among them, in terms of their market share in Russia, are Sichuan Honghua Petroleum Equipment and RG Petro-Machinery.
