How much does a compressor cost?

Prices vary with the technology and equipment of the compressors, ranging from a few hundred to several tens of thousands of euros. The more capacity, the higher the investment. When looking at offers from different manufacturers, make absolutely sure that the technical data of the machines are really comparable.

Should you buy a new compressor?

The major compressor manufacturers will be able to provide a forecast of annual maintenance costs, the sum of which might help you decide to purchase a more expensive yet more reliable compressor. This will then, one would hope, provide you with lower compressor maintenance costs over the life of the unit.

How much does compressed air cost per year?

With these factors, the annual cost can be calculated by Equation 1: $100\text{hp} * 0.746 \text{ KW/hp} * 1,000\text{hr} * \$0.08/\text{KWh} / 0.95 = \$6,282$ per year. In both equations, you can substitute your information to see what you actually pay to make compressed air each year at your facility.

What factors affect the cost of using an air compressor?

Of course, there are many factors that will impact the cost of using an air compressor. This includes how long you're running it and the cost of electricity in your area. Some air compressors are more energy-efficient than others, and so, they will cost less to operate.

Why should you buy a high-efficiency compressed air compressor?

Especially users with a high compressed air demand can save a lot of money if they rely on highly efficient technology: Even if a more efficient compressor is more expensive to buy, the difference to the higher initial investment is paid off very quickly through the energy saved - usually within a few months.

Are all compressor maintenance costs the same?

Not all compressor maintenance costs are the same, and so, it may be worth checking before selecting a compressor and comparing the maintenance costs down the line. Included in the maintenance part of the equation is the cost of the spare parts for regular maintenance and parts costs for emergency repair.
