

# Italian cement tanker screw air compressor

What does an air compressor do in a cement tanker?

Air compressors in the tankers use air discharge controls to pressurize tanker vessels and fluidize powder in and around the distributor planes of the tanker. The air compressor also has an essential role in distributing the fluidized powder from the tankers to pipes that run into the cement silos.

Which air compressors are made in Italy?

Rotair Spa offers the best portable and diesel screw air compressors Made in Italy. Our product range includes compressors FIBRA - FIBRA PLUS for fibre optic cable laying, Utility vehicles compressors and VRH - Hydraulic motor driven compressors.

Does Ceccato have an air compressor?

So whatever you're looking for Ceccato will have a compressor for you. Ceccato offers a number of different air compressor technologies to choose from. Ceccato Technology options for 3 kW to 15 kW air compressors include belt driven, gear driven and direct drive options.

Are Ceccato screw compressors a good investment?

Solid, reliable and efficient, Ceccato screw compressors are a safe investment. They save time, reduce breakdowns, accidents and costs in your production process. Ceccato's compressors are available with fixed speed, variable speed or permanent magnet motors. We provide direct or belt transmission driven options.

Are Fima compressors made in Italy?

Besides, we are proud to offer a range of items that is completely Made in Italy, a feature that has gained a major importance in the foreign markets, now more than ever. Founded in 2000, FIMA Compressors boasts over 40 years of great knowledge and experience in the field of compressed air.

Where are Ceccato screw compressors made?

The Ceccato range of fixed speed and variable speed permanent magnet screw compressors are assembled in Europe with components also manufactured in Europe. The entire cost of ownership is taken into consideration with these units with low energy use, ease of serviceability, low service costs and reliable components.
