Where can I find information on the offshore rig fleet?

The information provided and much more data on the offshore rig fleet can be sourced via the S&P Global proprietary offshore rigs information products, RigPoint and RigBase. For additional information, contact: Rig Support View the Petrodata Offshore Rig Day Rate Trends Report.

When will the International rig count be released?

Starting in February 2020, the international rig count will be released on the last working day of the first week of the month. The Baker Hughes Rig Counts are an important business barometer for the drilling industry and its suppliers. When drilling rigs are active they consume products and services produced by the oil service industry.

Does rigs tracker cover offshore drilling?

Users are advised that the Rigs Tracker covers only offshore drilling activity (shallow- and deep-water) and does not cover onshore and swamp areas. It focuses on sub-Saharan Africa only. The latest version of the Offshore Rigs Tracker was released in June 2023. Next release is scheduled for September 2023.

Who provides the working rig location information?

The working rig location information is provided in part by Enverus. The Investor Relations website contains information about Baker Hughes Rig Count's business for stockholders, potential investors, and financial analysts.
