

Well digging machine for sale in russia

What is a well drilling machine?

Well drilling machines are one of the most convenient ways to solve the problem of drinking and technical water. For many years such machines were developed by following the technological trends, and thus facilitating the process of drilling by using new methods that have resulted in greater success as well.

Who makes drilling rigs?

Drilling Technology Plant manufactures drilling rigs URB 2A2, URB 12.ZBT, small-sized drilling rigs UKB 12/25 and Static Sounding Rigs USZ, as well as provides warranty and maintenance services for drilling rigs and drilling equipment.

Do well drilling machines serve other purposes?

In time, it has become clear that well drilling machines can serve other purposes as well. Primarily, it refers to the geo-technological drilling in general, when heat pumps and sondes have become more popular way of providing thermal energy, these machines united in a new, modern category, known as multi-purpose drilling.

Which drilling rig is best for a small business?

Small-sized drilling are affordable therefore are best for smaller businesses or self-employed drillers. Usually for works with private water-wells. The drilling rigs has established itself as maneuverable in dense urban areas. For example the MBU series drilling rig, which is incredibly cost-effective.

How a modern drilling rig works?

The modern drilling rigs are up with the highest standards in safety and effectiveness of drilling works. The company introduces all available modern technologies. The manufacturing process is strictly controlled and all of the produced equipment undergoes testing on our own testing facility before being sent to the customer.
